

CXSL, Dual Piston Rods, Ball Bushing Bearing CXSL6-30

Datasheet

Series CXS is available in six bore sizes and stroke lengths up to 100mm. This series is very compact and has a very accurate non-rotating specification. It is suited for accurate pick-and-place applications or light duty material handling. The CXS can be used with either reed or solid state switches. Available in clean room versions.

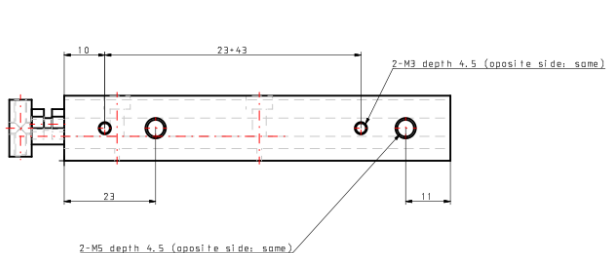

Double-acting, single-rod cylinder
