

ISO Cylinders

Wide range and fast delivery

WIDE RANGE: Our ISO Cylinders take standardisation to another level

SMC presents you our full range of standards-complying cylinders: tie-rod, compact and round crimped body cylinders which observe standards ISO 15552, ISO 6431, ISO 21287 and ISO 6432 respectively.

Nevertheless, in SMC, standard does not mean basic and we provide our ISO standard cylinders with additional features so they can adapt to your more particular demands:

- Wide range of mounting accessories – It is possible to mount the cylinders practically everywhere
- Many options available as standard: ATEX compliant to be used in potentially explosive atmospheres, high and low temperature resistance or intermediate strokes, among others (detailed information in the inside). **Because the applications are not always standard.**

FAST DELIVERY: SMC is close to you with ISO

Close to you with Standard ISO - Immediate Shipping & Fast Delivery -
At our European Central Warehouse placed in Antwerp we stock more than 1300 standard ISO Cylinder references (detailed information in the inside).

Close to you with Semi-customised ISO - Production time: from 3 to 5 days* -
Our newly opened Czech Republic Factory counts with the most modern facilities and highly qualified personnel to adapt our ISO range to your requirements (detailed information in the inside).

Close to you with Customised ISO - Production time: from 1 to 6 days* -
If you require a fully customised ISO, SMC's local facilities will adapt any of our ISO range to your specific demands (detailed information in the inside).

SMC's ISO Range – a Quick view

ISO 15552– C96-C & CP96-C Series – ISO 6431 – C95 Series – Profile & Round Tube Tie-Rod Cylinder The ISO cylinder with more standard options

With an easy adjustment of the cushion valve and a maximum flexibility for auto switch mounting on all four sides, C(P)96-C-C95 series achieve the best performance for both standard and specific applications. It can even be used in extreme environments or special conditions, for example: in smooth movements at low pressure, explosive atmospheres, places at high or low temperatures, dusty environments and areas subject to water splashing, among others.

ISO 21287 – C55 Series – Compact Body cylinder When space is a problem

If you don't find any cylinder that fits in that small place, C55 series is your solution. Designed in bores from Ø 20 to Ø 100, it now offers an improved and flush auto switch mounting possibilities with slide in grooves which can accommodate auto switches on all four cylinder sides without the need for auto switch brackets. There is also an option for explosive atmosphere.

ISO 6432 – C85 Series – Round Crimped Body cylinder A clean profile for dusty environments

The lightweight C85 has a unique rod packing design that prevents the entry of dust and its effectiveness of the seal is such that it is suitable for use in dusty environments, regardless of whether the environments are at high or low temperatures, or if you need to move slowly or work in explosive atmospheres.

ISO Standard [ISO 15552]. Tie rod cylinder Standard / Non Rotating / Smooth type Double Acting, Single/Double Rod Series C(P)96-C Ø 32, Ø 40, Ø 50, Ø 63, Ø 80, Ø 100

- Light weight
- Easy and fine adjustment of the air cushion valve
- Integrated function of the air cushion and the bumper
- Minimum piston rod deflection
- Wide range of made to order specifications
- Strokes up to 2000 mm
- Operating piston speed up to 1000 mm/s
- ATEX compliant version for explosive atmospheres
- Possible to mount directly round D-M9□ auto switches on the 4 surfaces of the CP96-C

European Manufacturing

3 days Production:

- Intermediate strokes
- Longer than standard strokes

5 days Production:

- Non Rotating cylinder
- Double rod cylinder
- Double rod + Non Rotating cylinder
- Smooth cylinder
- ATEX compliant version
- Change of rod end shape - XA0~30
- Heat resistant cylinder (-10 ~ 150 °C) - XB6
- Cold resistant cylinder (-40 ~ 70 °C) - XB7
- Tie rod, cushion valve and tie rod nut made of stainless steel - XC7
- Piston rod and rod end nut made of stainless steel - XC68

Local Manufacturing

(from 1 to 6 days Production):

Customised C(P)96-C

For emergency orders or other delivery dates, please consult with SMC

For orders up to 10 pcs, delivery dates are a guideline

ISO Standard [ISO 21287]. Compact Cylinder

Standard type

Double Acting, Single Rod

Series C55

Ø 20, Ø 25, Ø 32, Ø 40, Ø 50, Ø 63, Ø 80, Ø 100

- Strokes up to 150 mm
- Operating piston speed up to 500 mm/s
- ATEX compliant version for explosive atmospheres
- Possible to mount directly round D-M9□ auto switches on the 4 surfaces
- Tapped body with through holes for easy mounting
- Female and male rod threads available

Double acting, Single rod

How to Order

Order code: C D 55 B 20 - 10 - -

Built-in magnet

—	None
D	Built-in magnet

Mounting style

B	Through-hole/Both ends tapped common (Standard)
---	---

Bore size

20	20 mm
25	25 mm
32	32 mm
40	40 mm
50	50 mm
63	63 mm
80	80 mm
100	100 mm

Other options

—	None
XA1~30 ^{Note 1)}	Change of Rod end shape
XC6	Stainless steel piston rod and piston rod nut
X1439 ^{Note 2)}	Auto Switch – T-slot mounting

Note 1) Ø 20 to Ø 25 only possible XA1/2/6/7/11/17/18
Ø 32 to Ø 100: XA1 to XA23 and XA26 to 30 possible
Note 2) Only available from Ø 20 to Ø 63

Rod end thread

—	Rod end female thread
M	Rod end male thread

Stroke

Bore size [mm]	Standard stroke [mm]
20 to 63	5, 10, 15, 20, 25, 30, 35, 40, 45, 50, 60, 80, 100, 125, 150
80, 100	10, 15, 20, 25, 30, 35, 40, 45, 50, 60, 80, 100, 125

Note) Intermediate strokes by using an exclusive body are available. Order example: C55B32-47

Specifications

Type	Pneumatic (Non-lube)	
Action	Double acting, Single rod	
Fluid	Air	
Proof pressure	1.5 MPa	
Maximum operating pressure	1.0 MPa	
Minimum operating pressure	0.05 MPa (Ø 20 to Ø 63) 0.03 MPa (Ø 80, Ø 100)	
Ambient and fluid temperature	Without auto switch	-10 to 70 °C ^{Note)} (No freezing)
	With auto switch	-10 to 60 °C (No freezing)
Cushion	Rubber bumper on both end	
Piston speed	Ø 20 to Ø 63	50 to 500 mm/s
	Ø 80, Ø 100	50 to 300 mm/s

Note) ATEX version: -10 to 60 °C (No freezing)

Availability: Stocked items for fast delivery & Manufacturing (European and Local)

Stocked items could be subject to change without prior notice

* Auto switch -: without
D: with

European Manufacturing

5 days Production:

- ATEX compliant version
- Auto switch T-slot mounting -X1439
- Change of rod end shape -XA1~30
- Stainless steel piston rod and piston rod nut -XC6

Local Manufacturing

(from 1 to 6 days Production):

Customised C55

For emergency orders or other delivery dates, please consult with SMC

For orders up to 10 pcs, delivery dates are a guideline

D-M9BWL-588	2 wire	3 m
D-M9PWL-588	3 wire PNP	3 m
D-M9PWSAPC-588	M8-3pin PNP	0.5 m
Reed type		
Part No.	Wiring	Cable
D-A93L	2 wire	3 m
D-A93SAPC	M8-3pin	0.5 m
For ATEX ^{Note)}		
D-A93L-588	2 wire	3 m
D-A93SAPC-588	M8-3pin	0.5 m

Note) When mounting an auto switch on a 55-series (Category 2) model, the ATEX class of the cylinder with auto switch changes to Category 3, which is the same class as the auto switch. Auto switch only conforms to Category 3. (II 3GD EEx nA II T5x -10 °C ≤ Ta ≤ +60 °C IP67)

More Related Products

More Related Products

Series KQ2 - Fittings

- Easy and quick assembly with less labour costs and high flexibility

Series GUM/GUL - Guide Units

- External guides for cylinders with bores from 12 to 100

Series SY - 5 Port Solenoid Valves

- Unique all-purpose solenoid valve
- Up to 125 bore cylinders
- Outstanding flow while compact
- Plug-in metal base type available

Series AR - Regulator

- Port sizes from M5 to 1" and set pressure range from 0.05 to 0.85 MPa

Series TU - Tubing

- Good flexibility and available in 29 different colours

Series VBA - Booster Regulator

- Increase factory air pressure by up to 4 times

Series VFS - 5 Port Solenoid Valves

- For big bore cylinders
- Up to 300 bore cylinders

Series IR - Precision Regulator

- For instrumentation applications with a selectable pressure range from 0.005 to 0.8 MPa

Series RB - Shock Absorbers

- Wide range and automatic adjustment to the most appropriate absorption performance

Series AV - Soft Start-up Valve

- Gradually increases supply pressure during start up and rapidly exhausts air when the supply air is shut off

Series SY/SYJ - 3 Port Solenoid Valves

- Suitable to operate single acting cylinders
- High flow with low power consumption

Series ITV - Electro-Pneumatic Regulator

- Stepless control of air pressure proportional to an electrical signal with set pressure range from 0.005 to 0.9 MPa

Small auto switch mountable on all types

Perfect for use with our easy to set 2-colour indication solid state auto switch, series D-M9W

A **green** light illuminates up at the optimum operating range.

Other non-ISO cylinders

Other non-ISO cylinders that may suit your needs

Series CG1-Z Round cylinder

The Most Flexible Round Cylinder

When you need a round cylinder with many options...

- Shorter and cleaner than equivalent tie-rod cylinder
- Female and male rod end thread
- Grease for food processing equipment
- PTFE grease
- Non-rotating Rod
- Direct mount
- Direct mount / Non-rotating Rod
- Low friction
- With end lock
- With one-touch fittings
- Air-hydro type
- Clean series
- Copper free
- Water resistant

Bores: Ø 20, Ø 25, Ø 32, Ø 40, Ø 50, Ø 63, Ø 80, Ø 100

Standard strokes: from 25 to 300 mm (Maximum stroke up to 1500 mm)

Series CG3 Round cylinder. Short type

The Most Compact Round Cylinder

If space, weight or cleanliness is a challenge...

- Space saving
- Light weight
- Clean profile
- Female and male rod end thread

Bores: Ø 20, Ø 25, Ø 32, Ø 40, Ø 50, Ø 63, Ø 80, Ø 100

Standard strokes: from 25 to 300 mm

Series CG5-S Stainless Steel Round cylinder

The Cleanest Round Cylinder

For use in environments with water splashing such as food processing machines...

- Special scraper as standard prevents water from entering the cylinder
- All external parts (including mounts) are made from Stainless Steel (SUS304)
- Two types of seal material NBR or FKM can be selected
- Extended service life as it can be disassembled for replacement of seals

Bores: Ø 20, Ø 25, Ø 32, Ø 40, Ø 50, Ø 63, Ø 80, Ø 100

Standard strokes: from 25 to 300 mm (Maximum stroke up to 1500 mm)

Series CQ2-Z Compact cylinder

The Most Flexible Compact Cylinder

If you need the special to be standard...

- Female and male rod end thread
- Non-rotating Rod
- Axial Piping
- Anti-lateral Load
- With end lock
- Water Resistant
- Smooth Cylinder
- Low-speed
- Heat resistant cylinder (-10~150 °C)
- Cold resistant cylinder (-40~70 °C)
- With heavy duty scraper
- Piston rod, rod end nut made of SUS
- With coil scraper
- Fluoro rubber for seals
- Dual stroke cylinder / Double rod type
- Dual stroke cylinder / Single rod type
- Change of rod end shape
- With boss in rod side
- With concave boss on head end
- Special port location
- With one-touch fittings
- Air-hydro type
- Clean series
- Copper and fluorine-free series

Bores: Ø 12, Ø 16, Ø 20, Ø 25, Ø 32, Ø 40, Ø 50, Ø 63, Ø 80, Ø 100, Ø 125, Ø 140, Ø 160, Ø 180, Ø 200

Standard strokes: from 5 to 300 mm

Series CQU Compact cylinder. Plate type

The Thinnest Compact Cylinder

When you have tried everything and nothing else fit in that small space...

- Light and compact
- Allows smaller mounting pitch
- Female and male rod end thread

Bores: Ø 20, Ø 25, Ø 32, Ø 40

Standard strokes: from 5 to 100 mm

Series MGP-Z Compact Guide Cylinder

The Most Flexible and Compact Guide Cylinder

If you need the robustness of a guide cylinder...

- Slide bearing type
- Ball bushing type
- High precision ball bushing type
- Wide type (for transferring large work pieces)
- Copper and fluorine-free series
- Change of guide rod end shape
- Low-speed
- Machining tapped hole, drilled hole and pin hole additionally
- Bottom mounting style
- Symmetrical port position
- Lateral piping type
- Heat resistant cylinder (-10~150 °C)
- Fluoro rubber for seals
- With air cushion
- With end lock
- Heavy duty guide rod
- With lock
- Clean series
- Water Resistant
- With shock absorber
- With heavy duty scraper
- With parts made of SUS
- Extension/retraction adjustable type
- With coil scraper
- Dust proof type
- With felt

Bores: Ø 12, Ø 16, Ø 20, Ø 25, Ø 32, Ø 40, Ø 50, Ø 63, Ø 80, Ø 100

Standard strokes: from 10 to 400 mm
